

# A summary of the adult social care sector and workforce in Merton

## 2022/23

Skills for Care is the strategic workforce development and planning body for adult social care in England. We work with employers, Government, and partners to ensure social care has the right people, skills, and support required to deliver the highest quality care and support, now and in the future. Our role is to respond and adapt to the emerging trends and needs within social care, using data and evidence to drive forward widescale change.

The information within this summary has been produced by Skills for Care using the Adult Social Care Workforce Data Set (ASC-WDS). We use the data collected by the ASC-WDS to create workforce models that, in turn, allow for estimates of the whole adult social care workforce and its characteristics to be produced. The \* notation indicates the figure has been suppressed.

### Size and structure of the workforce

In 2022/23 the adult social care sector in England had an estimated 18,000 organisations with 39,000 care-providing locations and a workforce of around 1.79 million posts.

The total number of posts in Merton was around 5,700 in 2022/23. This was comprised of 5,100 filled posts and 650 vacancies. Since the previous year, the total number of posts has decreased by 75 (-2%), the number of filled posts has increased by 50 (less than 1%) and the number of vacancies has decreased by 150 (-18%).

There were an estimated 5,100 filled posts in adult social care, split between local authorities (7%), independent sector providers (80%), posts working for direct payment recipients (7%) and other sectors (7%). As at March 2023, Merton contained 97 CQC-regulated services; of these, 40 were residential and 57 were non-residential services.

If the workforce grows proportionally to the projected number of people aged 65 and over then the total number of adult social care posts in the London region will increase by 25% (from 250,000 to 315,000 post) between 2022/23 and 2035.

**From here on, the figures in this report refer to the 4,400 filled posts** in the independent sector and local authority in Merton only. Filled posts in other sectors are not included.

The independent sector information in this report was collected between April 2022 and March 2023, and local authority information dates from September 2022.

For information about changes in the workforce since March 2023, using monthly monitoring of the ASC-WDS, please see our Workforce Intelligence website<sup>1</sup>.

### Recruitment and retention

Skills for Care estimates that the staff turnover rate in Merton was 41.1%, which was higher than the region average of 22.7% and higher than England at 28.3%. Not all turnover results in workers leaving the sector, many starters are recruited from within the adult social care sector, therefore although employers need to recruit to these posts, the sector retains their skills and experience.

We estimate that the vacancy rate in Merton was 15.80%, which was higher than the regional average of 12.1% and higher than England at 9.9%.

<sup>1</sup> <https://www.skillsforcare.org.uk/monthlytracking>

Across England, the vacancy rate has decreased compared to last year and the number of filled posts has increased. During this period international recruitment increased substantially which has impacted these trends.

Workers in Merton had on average 10.8 years of experience in the sector and 83% of the workforce had been working in the sector for at least three years.

We know that recruitment and retention is one of the largest issues faced by employers. We have many resources and tools available to help, for example the ‘Values-based recruitment and retention toolkit’<sup>2</sup> and ‘Seeing potential: widen your talent pool’.<sup>3</sup> For more information please visit:

[www.skillsforcare.org.uk/recruitment-retention](http://www.skillsforcare.org.uk/recruitment-retention)

## Employment information

We estimate Merton had 4,400 adult social care filled posts in the local authority and independent sectors.

These included 300 managerial roles, 175 regulated professionals, 3,400 direct care (including 3,000 care workers), and 500 other-non-care proving roles.

The average number of sickness days taken in the last year in Merton was 5, (5.4 in London and 5.9 across England). With an estimated directly employed workforce of 3,300, this means employers in Merton lost approximately 16,500 days to sickness in 2022/23.

Around half (44%) of the workforce in Merton were on zero-hours contracts. Around half (52%) of the workforce usually worked full-time hours and 48% were part-time.

**Chart 1. Proportion of workers on zero hours contracts by area**

<sup>2</sup> [www.skillsforcare.org.uk/values](http://www.skillsforcare.org.uk/values)

## Workforce demographics

The majority (81%) of the workforce in Merton were female, and the average age was 48 years old.

Workers aged under 25 made up 4% of the workforce and workers aged 55 and above represented 35%. Given this age profile approximately 1,600 posts will be reaching retirement age in the next 10 years.

Nationality varied by region, across England 81% of the workforce identified as British, while in the London region this was 59%. An estimated 50% of the workforce in Merton identified as British, 10% identified as of an EU nationality and 40% a non-EU nationality, therefore there was a higher reliance on non-EU than EU workers

## Pay

Table 1 shows the full-time equivalent annual or hourly pay rate of selected job roles in Merton (area), London (region) and England. All figures represent the independent sector as at March 2023, except social workers which represent the local authority sector as at September 2022. At the time of analysis, the National Living Wage was £9.50.

**Table 1. Average pay rate of selected job roles by area**

	England	Region	Area
Full-time equivalent annual pay			
Social Worker*	£39,100	£47,100	£44,000
Registered nurse	£37,000	£37,800	£39,500
Hourly pay			
National Living Wage	£9.50	£9.50	£9.50
Senior care worker	£11.09	£11.41	£11.56
Care worker	£10.34	£10.69	£10.91
Support and outreach	£10.31	£10.77	£10.75

\*Local authority social workers only.

## Qualifications, training and skills

---

We believe that everyone working in adult social care should be able to take part in learning and development so that they can carry out their roles effectively. Learning and development helps everyone to develop the right skills and knowledge to enable them to provide high-quality care and support.

Skills for Care estimates show that 51% of the direct care providing workforce in Merton hold a *relevant* adult social care qualification (48% in London and 46% in England).

Raw data from the ASC-WDS showed, of those workers without a relevant adult social care qualification recorded, 63% had five or more years of experience in the adult social care sector, 60% had engaged with the Care Certificate and 66% had completed training.

### Factors affecting turnover

Together with a data science specialist, we used ASC-WDS information to create machine learning models that were used to assess which variables had an effect on adult social care workers' propensity to leave their posts.

### Across England, variables that influence the likelihood of a worker leaving their role were:

- Workers who travelled further were more likely to leave.
- Those under 25, and over 60 years old, were more likely to leave their posts.
- Turnover decreased with higher levels of experience working in the sector.
- Likelihood of leaving decreased as pay levels increased.
- Likelihood of leaving decreased with higher levels of experience in role.
- Likelihood of leaving decreased if workers had more training.
- Turnover decreased if workers had a higher number of contracted hours.
- Likelihood of leaving decreased if workers had fewer sickness days.
- Workers on zero-hours contracts were more likely to leave their posts.
- Likelihood of high turnover rates increased if the establishment had high turnover historically.

### Analytical service and relevant resources

---

Our analysis team provides an external analysis service which is able to produce a range of in-depth reports, tailored to your specific requirements.

You can commission us to help you:

- Partner with us to draw on our adult social care data and expertise to win bids and tenders.
- Provide a detailed analysis of a geographic area, including analysis below local authority level.
- Draw on our data science capabilities - discover how key outcomes (such as CQC scores, turnover rates and vacancy rates) can be improved.
- Provide trends back to 2012/13 and forecasts for how the workforce could look like in the future.
- Request a feed of data to enhance or improve a product or service.

Skills for Care provides outstanding workforce intelligence relied upon by the sector to make decisions about adult social care planning and service delivery. To read more publications, including the 'State of the adult social care sector and workforce in London' and key workforce topic areas please see:

[www.skillsforcare.org.uk/W/publications](http://www.skillsforcare.org.uk/W/publications)

For more detail about the methodology used to create these estimates please see:

[www.skillsforcare.org.uk/workforceestimates](http://www.skillsforcare.org.uk/workforceestimates)

### Interactive visualisations

---

Two interactive visualisations have been created at an LA level, to enable you to see and understand your workforce intelligence in a more visual and interactive way. One allows you to see your LA area in more detail and another to compare LA areas. To access the visualisations, please see

[www.skillsforcare.org.uk/lasummaries](http://www.skillsforcare.org.uk/lasummaries)
