

# Workforce Development Fund 2018-19

## Funded qualifications and learning programmes

Last updated September 2018

It is important to note that a maximum of £1,200 can be claimed per learner per funding year (April to March).

All learning is claimed on completion of a qualification or learning programme and evidenced by a copy of the learner's certificate.

Funding is only available for the qualifications specified below.

Some awarding organisations are still having their qualifications approved so more will be added when the fund launches.

Some qualifications listed are no longer available to learners but WDF can be claimed for already registered learners on completion.

Qualification titles highlighted green have been approved by Skills for Care against our RQF minimum specifications
