

Workforce Development Fund 2018-19

Funded qualifications and learning programmes

Last updated January 2018

It is important to note that a maximum of £1,200 can be claimed per learner per funding year (April to March).

All learning is claimed on completion of a qualification or learning programme and evidenced by a copy of the learner's certificate.

Funding is only available for the qualifications specified below.

Some awarding organisations are still having their qualifications approved so more will be added when the fund launches.

The new level 5 RQF diploma in leadership and management in adult care does not open to registration for learners until September 2018. Candidates are therefore unlikely to complete the qualification in the 2018/19 funding year so these qualifications have not yet been added to this list.
