

Graduate Management programme

in health and social care

Could you host a graduate?

Graduates are a great asset to care organisations, offering financial and practical value alongside fresh thinking and insight.

Our one-year programme fast-tracks graduate learners towards leadership roles, and we're seeking forward-thinking health and social care employers to invest and grow with them.

Benefits to your organisation

- Our graduates complete a rigorous values-based selection process.
- They are enthusiastic and will provide an injection of new ideas into your community.
- They bring transferable skills and expertise, bringing about positive change and new knowledge.
- Graduate learners will join and complement your professional network and its reach.

Delivered in partnership with:

Leadership Academy

What we need from you

- A commitment for facilitating a one-year placement.
- Initial ideas of projects and credible work the learner can undertake.
- A dedicated placement supervisor to support a consistent learning journey.

Our graduates have brought youthful enthusiasm to the team, reminding us that having the right attitude is so important in work. Their questioning of what we do and why we do it was helpful in identifying many areas for improvement.

Guy Kilminster, Cheshire East Council

Cost

£18,000+VAT to cover the graduate's bursary for one year.
