

# Level 5 Commissioning for Wellbeing - Learning Disability & Autism

# What – learning outcomes

- Recognise the importance of co-production at every stage of the commissioning cycle
- Ability to design innovative care and support
- Understand:
  - The market
  - Legislative requirements
  - Population needs
- Outcomes-focused commissioning
- Supporting services to improve

# Who – target audience

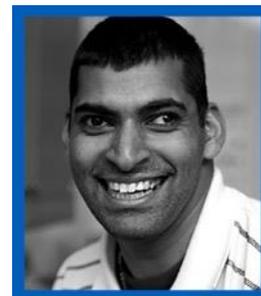

Anyone involved with arranging or purchasing care and support for people with a learning disability or autistic people.

Health  
commissioners

Social care  
commissioners

Social care  
providers

# Funding

**Social care** - part funding via the Workforce Development Fund, and then topped up

**NHS** - fully funded

<https://www.skillsforcare.org.uk/Funding/Workforce-Development-Fund/Workforce-Development-Fund.aspx>

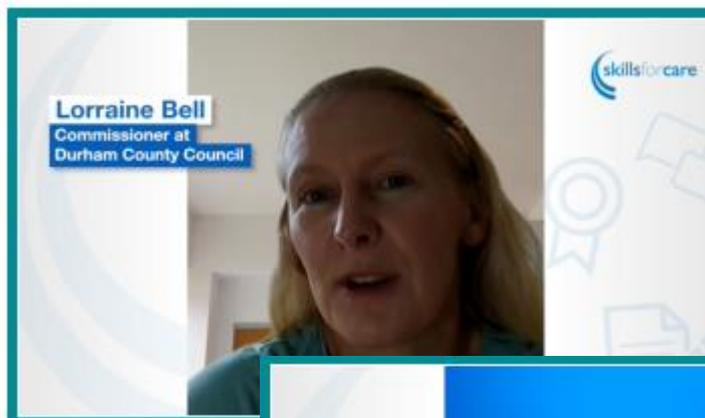

# Why – value of the qualification

*“I have learnt what co-production means (really) and the impact it can have on an individual, their family, their community and the Service Provider”*

- Better outcomes for people with a learning disability and autistic people
- Improved services
- Improved confidence and motivation
- More flexible and innovative approaches to commissioning
- Connections with others involved in commissioning

# Why – hear from learners

Hear from these learners  
and other stakeholders.
