

Programme Information

The new Professional Capability Framework provides descriptors of required practice at different levels and in relation to the nine domains. Leeds City Council is providing a continuous professional development initiative as a pilot scheme for staff at the social work level. At this level, "they progress to practice effectively, exercising higher quality judgments, in situations of increasing complexity, risk, uncertainty and challenge. Through growing understanding they expect and anticipate, but do not pre-judge, the issues that may develop. They have greater confidence and independence (whilst accessing support when needed), and use their initiative to broaden their repertoire of responses; they have expertise in one or more areas of practice, be familiar with local resource networks and be recognized by peers as a source of reliable knowledge and advice". (Skills for Care).

It is expected that staff will be assessed holistically against the framework on an ongoing basis but the development opportunities that have been provided, map particularly well to some areas, as outlined below. Participants on the scheme should, however, familiarize themselves with the framework as the choice of work to focus on may well demonstrate further elements.

Modules	Professional Capabilities
<p>Interpersonal Skills: The module begins with a self-evaluative skills audit, participants then do role-play and receive peer feedback, they will then.</p> <ul style="list-style-type: none"> ▪ Be filmed, in a safe environment, engaging with service users, carers and professionals ▪ Use the film in an enhanced reflective supervision session with their manager to identify strengths and development needs. ▪ Demonstrate and evaluate interpersonal skills in effective engagement with service users, carers and professionals ▪ Consolidate interpersonal skills through critical reflection of their practice 	<p>Intervention and skills.
